The Recipe...

It's really simple when you think about it. We need an end product. If we all pitch in and do a little bit, the product is produced and we will have it.

The story of Rock Soup is an old one. A stranger wanders into a village. The people of the village are poor and keep to themselves. The stranger approaches each house and says, "I'm trying to make rock soup. Rocks are in abundance, but I need more than just that. Could you find it in your heart to spare something I can add to my soup?"

For obvious reasons the villagers thought this man was crazy. But they helped him out because they wanted to get him off their front porches, (and they wanted to watch the crazy man make his soup).

...the Rocks

The stranger collected meat and potatoes, salt and pepper, carrots and peppers, tomatoes and beans, spices and onions, and other items fit to be in his soup. He borrowed a large cooking pot and firewood, and in the center of the village he made his soup. All the while, the villagers spied through their windows.

Soon the aroma of the soup filled every corner of the village, and the people ventured out of their homes. They approached the stranger and asked for just a taste of this strange stew.

The stranger exclaimed, "Eat all that you like, for it is your soup!" He had brought these people together by showing them what wealth they had if only they worked together. And no one even noticed a very small rock in the soup.

Headlines from America

Right--
The torch was passed in the summer of 1994. After hearing about the legendary rock festival from their parents for years, a new generation seized the opportunity to create their own Woodstock. Several hundred thousand people arrived at Saugerties, NY for Woodstock '94. Dispite the rain and mud, fans had a great time. From folk music to heavy metal, the weekend concert was filled with music almost 24 hours a day.

Below--
Accused of brutally murdering his ex-wife, Nicole Brown Simpson, and her friend, Ronald Goldman, the nation became immersed in the trial of O.J. Simpson. The trial has become a ratings hit for Court TV and CNN.

Below Right--
On the other side of the O.J. Simpson trial is prosecutor Marcia Clark. She represents the Los Angeles County District Attorney's Office.

Left--
Tropical Storm Alberto hit the South, and the Georgia floods made history. The storm unloaded more than 20 inches of rain and caused flooding that killed 31 people.

Below Left--
Forest fires swept across more than a dozen western states, blackening some 3 million acres. Fourteen firefighters were killed in a blaze in Colorado.

Below--
Heather Whitestone achieved her goal of becoming Miss America. She became deaf at the age of 18 months after a reaction from a diphtheria shot.

Right--
In Haiti, a negotiating team lead by former U.S. President Jimmy Carter struck a deal with acting president Gen. Raoul Cedras that included U.S. troops occupying the island and Pres. Aristide's return to power.

Below--
More than a million refugees were forced to flee to Zaire after the Tutsi takeover in Rwanda.

Bottom--
An estimated 500,000 Rwandans were killed when the Tutsi Rwanda Patriotic Front took power.

Headlines from Abroad

Left--
Refugees fleeing the dictatorial regime of Fidel Castro were refused entry into the United States. President Bill Clinton ended 28 years of favored treatment for Cuban refugees. He ordered U.S. ships to intercept those fleeing Cuba by boat and to detain them at the U.S. Naval base in Guantanamo Bay. Tens of thousands of Cubans boarded makeshift vessels bound for Florida.

Below--
Although a referendum for independence from Yugoslavia was passed in 1992, war and desperation continued to be part of life in Bosnia-Herzegovina. Serbian forces massacred thousands of Bosnians, mostly civilians. It wasn't long after the referendum passed that Serb nationalist forces occupied 70 percent of Bosnia, with Croats holding only a small area. In 1993, Bosnian Serbs, Muslims and Croats agreed in principle to partition the country into autonomous ethnic regions. But as 1994 drew to a close, the bitter fighting continued and negotiations on a peace plan made slow progress.

Headlines from Washington

Above--
President Bill Clinton entered 1995 with the hope for a better year. His self-declared most important mission, Nationalized Health Care, failed in 1994.

Above Right--
First Lady Hillary Rodham Clinton was the strongest supporter and advocate of the President's Health Care Plan.

Right--
Judge Stephen G. Breyer became President Clinton's second Supreme Court appointee. He filled the vacancy left by Justice Harry A. Blackmun.

Left--
Longtime Senate Minority Leader Bob Dole became the Senate Majority Leader when November elections catapulted Republicans into control of both houses of Congress for the first time in over 40 years. Dole announced his intentions to run against Bill Clinton for president in 1996.

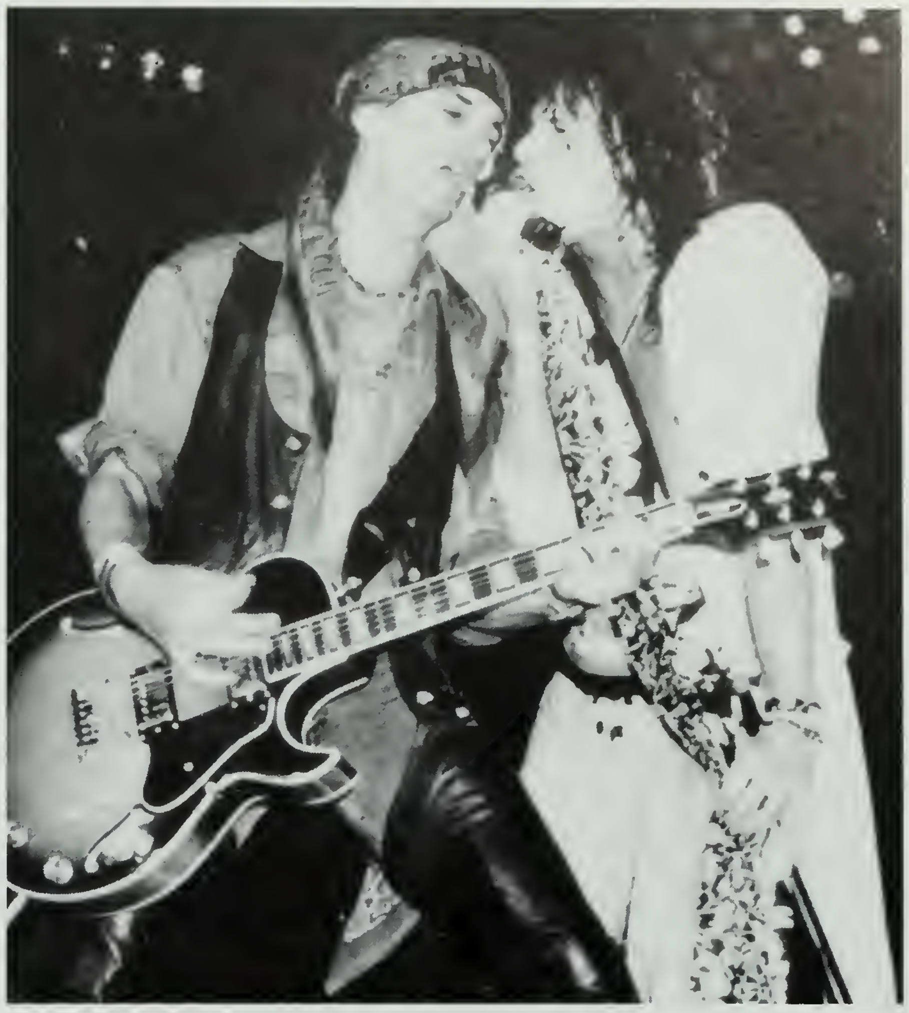
Below Left--
Vice-President Al Gore had a 16 year stint in Congress before becoming the Vice President. He is now using that experience to help push Pres. Clinton's legislation through the bureaucratic maze.

Below--
Senator Daniel Patrick Moynihan is one of the most powerful members of Congress. The 67 year old New York Senator with a Ph.D. and a Harvard professorship has gained a reputation as one of the Senate's leading intellectuals.

Headlines from Music

Top--
A quartet from Sweden hit the charts this year with their Number One album, *The Sign*. Ace of Base was an instant success.

Right--
Even while their previous album *Core* was still on the charts, the Stone Temple Pilots made it to the Top 10 with *Purple*.



Top Left--
Toni Braxton sings the smooth sounds of rhythm and blues. She captured critical and commercial success with songs like "Breath Again" and "Another Sad Love Song."

Above--
Aerosmith, the bad boys from Boston, just keep going and going. The band bashes out songs as it has since it ruled the arenas in the 1970's.

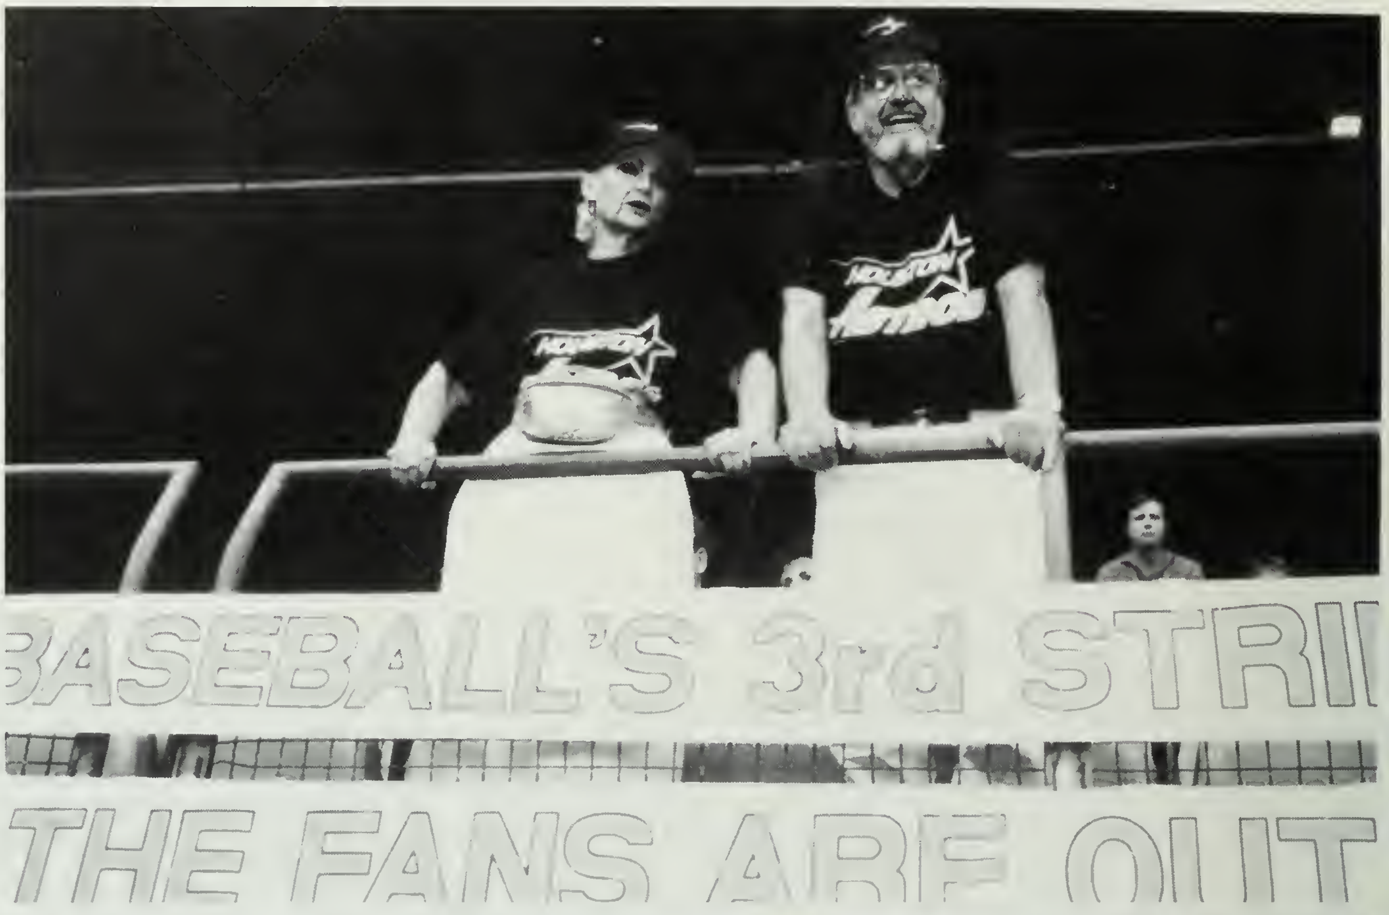
Left--
Garth Brooks was named the Academy of Country Music's Entertainer of the Year for the fourth straight time. This versatile performer had three albums on the Billboard Top 200 list.

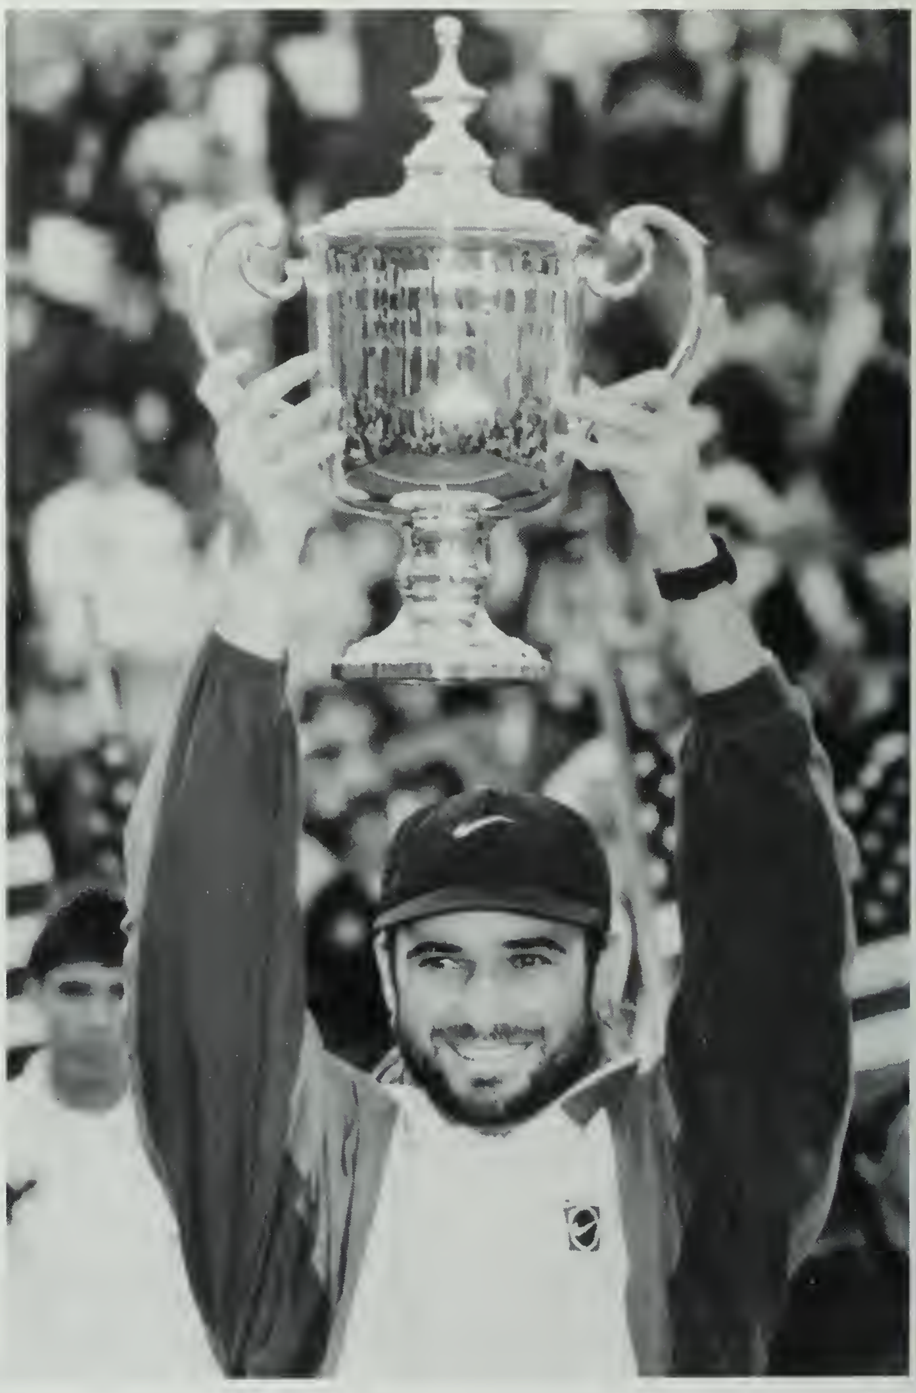
Headlines from Sports

Top--
The baseball season ended early in 1994. It was the first time since 1904 that the World Series, which had survived world wars and an earthquake since its inception in 1903, was not played.

Above--
Jerry Rice of the San Fransisco 49ers became the NFL's all-time touchdown scoring leader. He surpassed the record previously held by Jim Brown of the Cleveland Browns.

Right--
Andre Agassi won his first U.S. Open Tennis Championship. The 24 year old was the first unseeded player to win the crown since 1966 when Fred Stolle won.





Top--
The 1994 World Cup soccer competition was played in the United States. In this photo, the U.S. Team played Brazil but lost 1-0 in the second round. Brazil advanced to the finals and defeated Italy to win the tournament.

Above--
Ken Griffey Jr. of the Seattle Mariners was on a pace to break the one season home run record held by Roger Maris. But the end of the season kept that from happening, and now he'll have to wait until the 1995 season.

COLOPHON

Well, this is the part of the book where, traditionally, everyone who helped make it possible gets thanked. A sort of pat on the back for a job well done. Unfortunately, to list those names this year would cause those people more harm than good. No one person will receive any credit or blame for this book. No names will be listed here.

You see, there were many people who were supposed to contribute. But in the end, it was a relative few who truly did. To put their names as contributors and not list those who's shortcomings hurt this production would be an insult. Those listed would have to take the blame for those not listed. It's not fair, but it's the best I can do.

I would like to offer great thanks to those who did help with this yearbook. You know who you are, and I could not have done it without you.

Thanks also go to the Clubs & Organizations and Greeks who submitted photos and information (an extra thanks if you read the Submission Guide); to the Sports Information Office for helping with (what else?) Sports; to all the folks who took pictures and gathered information; and to all of the students who took a few minutes out of their day last fall to have their pictures taken.

The theme of this book was one of cooperation and teamwork. It was also an experiment in cooperation and teamwork. It failed. Once again, as has been done through the ages, this yearbook was produced by only a handful of students. Perhaps next year will be better. Optimism is why we have hope for a greater future.

Anyway, this is a great school in a great town. Everyone should enjoy their time here, as it will be passing very quickly. What is chronicled here is a part of our collective past. Make the most of your personal future. There may even be a yearbook around to remember it with.

Editor-in-Cheif
1994-95 Bluejay
